protecting people

uvex is one of the world's leading producers of protective products and has global manufacturing expertise.

Cutting-edge technologies and solutions, customer-oriented service, best-in-class production and testing for personal protective equipment. These are the reasons everyone who places their trust in us benefits from the best possible protection for sports, leisure, and work.

**"Made in uvex" is our promise of quality. For this reason, we set demanding standards for our products, our production facilities, and our network of partners.**

At uvex, our primary focus is on people, be they customers, employees, or partners. We work to balance economy, ecology, and social commitment and follow the philosophy of "business is people."

# COLOR VISION

# boost your eyes

See more, with the innovative uvex colorvision technology.

Not just an optical effect: these innovative lenses ensure extra comfort for even the fastest changes of view.

The contrast optimization in uvex colorvision technology provides better vision and a safer view. For the ultimate vision. Every time. Everywhere.

Laura Philipp

# see the world in new colors

The exceptional uvex colorvision technology is designed for the visual demands and light conditions of any environment and for every sport. No matter where you are. No matter what you do.

The three innovative color filters in the uvex colorvision lenses provide unique contrast and perfect vision – on any trail, in the city, or just outdoors. For more performance and safety.

The tinted lenses provide an increased contrast perception and an improved viewing experience – even in poor visibility conditions.

Unfiltered, harsh or diffuse light hits uvex colorvision lenses.

## urban

### Safe through the city.

The urban color filter helps to quickly detect traffic lights or brake lights, potentially improving reaction time. See better, react faster, ride safely.

uvex sportstyle 803 colorvision

uvex sportstyle 706 colorvision

uvex sportstyle 224 colorvision

## outdoor

### Sharp vision – even off-road.

Improved depth perception thanks to an optimized contrast. Potentially dangerous potholes, rocks or uneven surfaces are more visible: higher contrast, more detail.

uvex sportstyle 803 colorvision

uvex sportstyle 706 colorvision

uvex sportstyle 224 colorvision

## daily

### The extra to the ordinary.

The daily color filter makes everyday life a completely new experience. Natural colors become clearer and shine in a new light. Comfortable, stylish, on-trend.

uvex sportstyle 706 colorvision

uvex lgl 44 colorvision

uvex lgl 36 colorvision

# a perfect match

uvex variomatic® meets uvex colorvision technology: lens tinting and contrast enhancement – for optimal vision.

The fusion of automatic lens tinting and optimal contrast enhancement now combines to create a unique viewing experience – in one unparalleled, innovative uvex lens. Made for sports activities in any weather and every environment: the uvex variomatic®

technology for automatic lens tinting provides just the right level of lens brightness, while the color filtering of the uvex colorvision technology creates brilliant contrasts and makes colors shine. Too good to be true? Not with uvex.

## uvex sportstyle 803 colorvision vm

ITEM NO.: S53.2.034. ...

A lens shape, which is extended at the top, ensures that uvex sportstyle 803 cv vm has the best visibility, even in the low riding position on a road bike. This is amplified by the uvex colorvision lenses, which increase color vibrancy and contrast, and is combined with uvex variomatic® technology, which automatically adjusts the tint to the current light conditions (cat. 1–3).

# variomatic®

Stepless lens-tinting  
for optimal vision in  
every situation.

**Perfect lens-tinting in seconds: from crystal-clear to pitch-dark. On sunny, cloudy or rainy days. uvex variomatic® lenses guarantee a clear view in all weather conditions.**

Eyewear with uvex variomatic® automatically reacts to the natural light conditions. Making complicated lens changes a thing of the past.

## // technology

**uvex variomatic® glasses react to incoming light via the photochromic layer in the lens. A chemical reaction results in the stepless tinting of the lens.**

Depending on the light intensity, the lens darkens or lightens.

Like all uvex glasses, variomatic® lenses provide 100% protection from UVA, UVB and UVC rays.

Learn more:  
[uvex-sports.com/variomatic](https://uvex-sports.com/variomatic)

# one day. one lens.

Always see better.  
With uvex variomatic®  
technology.

**From morning to night.  
From sunny to cloudy. The  
photochromic variomatic®  
lenses from uvex guaran-  
tee the best vision in every  
weather, at any time.**

Sports eyewear with innova-  
tive uvex variomatic® tech-  
nology automatically reacts  
to the light conditions, from  
light to dark: in sunshine, the  
lens darkens. If clouds cover  
the sun, the lens lightens.  
Perfect for those who give  
everything outdoors and who  
always want perfect vision,  
even in changeable weather  
conditions.

## 5.00 PM

The first clouds gather,  
the sun slowly sets.  
The glasses gradually lighten.

**cat. 1-2**

## 6.30 AM

Sunrise. Diffuse light.  
The lens stays transparent.

**cat. 1**

## 11.30 AM

The sun breaks through  
the clouds. The lens  
darkens slightly.

**cat. 2**

## 1.30 PM

Bright sunshine: the glasses  
darken completely.

**cat. 2**

## uvex sportstyle 812 v

ITEM NO.: S53.2.023. ...

Thanks to base curve 10 lenses the uvex sportstyle 812 v opens up a perceived 180° panoramic view, and the optical curve provides more protection and freedom from drafts. ## uvex sportstyle 511

ITEM NO.: S53.2.027. ...

The uvex sportstyle 511 is the sporty lifestyle sunglass for kids. The classic plastic frame with discreet uvex logo is fitted with cat. 3 filter category lenses, for complete protection from UVA, UVB and UVC rays.

### FEATURES

**PROTECTION**  
100% UVA, UVB, UVC protection

**LENS**  
litemirror

**COMFORT**  
eyewear strap

### VIEWS

litemirror silver (cat. 3)

**blue clear**  
4916  
mirror blue (cat. 3)

**pink clear**  
3916  
mirror pink (cat. 3)

**break resistant**

uvex eyewear is tested in accordance with standard EN ISO 12312-1:2013. This includes the demanding impact test, in which a 6 mm steel ball, weighing 0.86 g is fired at the lens at a speed of 45 m/s (162 km/h).

**UV protection**

UV-absorbing filters built directly into the raw material protect the retina 100% from damaging UV rays up to 400 nm.

**curve 10**

As well as great fit, the highly curved frame raises safety and comfort. It increases protection from flying particles or uncomfortable drafts, and prevents eyelashes brushing against the lens. The highly curved lens has a full centimeter of curvature. So, the eyewear conforms more closely to the head's natural shape and lies closer at the sides.

**robust and scratch-proof**

Made from durable polycarbonate, these lenses can withstand temperatures as low as -40 °C without any reduction in their mechanical strength. A special coating protects the lenses from damage, in accordance with standard EN ISO 12312-1, making them scratch resistant, without impairing their optical clarity.

**easy to clean**

Thanks to the special surface coating, moisture or fingerprints are easy to remove from the lens. This coating also has an anti-static effect, which helps stop dust or dirt from being attracted to it.

**decentered lens technology**

Distortions and curving in the field of view can be distracting. For this reason, uvex uses Class 1 injected, decentered lenses, which ensure clear, distortion-free vision.

**polavision®**

Reliable protection against reflections and glare: lenses in the polavision® range absorb diffuse light to reliably protect the eyes from strain.

no coating

uvex supravision® coating

**supravision®**

A special surface treatment ensures fog-free vision, without altering the optical quality of the lens.

**lens types**

Light condition	low light	medium bright// bright	bright	glare*

			smoke (cat. 3) brown (cat. 3)	

\*Not suitable for use in the car.

**direct lens ventilation**

uvex climate technology provides permanent, draftfree ventilation. So, the field of view is always fogfree.

**interchangeable lens construction**

uvex interchangeable lens technology guarantees ease of use and perfect vision in every weather.

**soft nose pads// soft earpieces**

Eyewear fits perfectly when you forget you're wearing it. Soft nose pads and soft ear pieces ensure pressure-free wearing comfort.

Many models feature cold-formable, soft legs. So it's easy to ensure the perfect fit.

**one brand.  
one mission.  
one vision.**

**uvex products protect people at work as well as in sport and leisure. As a partner of international top-level sport, uvex equips over 1,000 professional athletes worldwide.**

The transfer of knowledge between uvex safety and uvex sports makes our products even safer, more functional, and more comfortable – both product divisions benefit mutually from this collaboration.

This was perfectly demonstrated at the Challenge Roth 2017, the biggest long-distance triathlon competition in the world: uvex safety provided equipment to the construction team and uvex sports equipped the athletes – that's what you call successful team work.

**protecting people**
